

Secretary-General's information brief on UN80 actions

~40 out 85 UN80 actions that will be updated through Secretary-General's information briefs

WP	Action#	Action description	Why this matters	Where we stand
WP2, 14, 15	17, 18, 61, 63, 64, 65, 67	Develop a Unified Services Roadmap to accelerate sharing of back-office services across the UN system	Lower administrative costs across the system to save resources for better programme delivery on the ground.	Completed and issued. 
WP22	55	Improve organizational setups for prevention, peacebuilding and peace support in the UN Secretariat	Faster, better-matched deployable support to nationally-led prevention and peacebuilding priorities.	Completed, being issued.
WP9	42	Establish a Human Rights Group	Better internal UN system coordination, building on existing architectures.	Completed, being issued.
WP28	31	Improve UN Secretariat support for LDCs, LLDCs and SIDS	More coherent UN Secretariat support to countries in special situations, within existing arrangements.	Completed, being issued.
WP7	33	Establish Joint Knowledge Hubs	Improved access to thematic UN insights and analysis on development topics at global level.	Expected: September.
WP16	74, 75	Establish a UN System Data Commons	Public data and statistics from 25+ UN system entities brought together in one digital platform.	Expected: September.
WP2	20, 24	Strengthen humanitarian data and interoperability	Improved management, use and financing for humanitarian data so that assistance is better targeted, more efficient and reaches people faster.	Expected: September.
WP15	62	Improve and accelerate the use of technology across the UN system	Common technology approaches in place of fragmented, entity-specific systems, lowering costs and enabling more innovation.	Expected: September.
WP21	93	Develop an action plan to strengthen system-wide results management	A clearer line of sight from mandates to resources and results across the UN system	Expected: September.
WP8	24, 54	Establish the expertise-on-demand mechanism	Better access to UN system expertise and capacities for country teams and governments, whether or not those capacities are physically present.	Expected: September.
WP18	76, 77, 78, 91	Assess UN system funding mechanisms and develop proposals for improvement	Core and pooled funding are made more effective and attractive, addressing the incentives that drive fragmentation.	Expected: September.
WP1	14	Delegate delivery of relevant tasks in multidimensional peace operations to the best-placed UN system entities	Resources for programmatic and civilian tasks can be delivered by the entities best equipped to deliver them, avoiding duplication and overlap.	Expected: October.
WP2	22, 23, 25	Realign agency responsibilities in humanitarian delivery (various themes)	Clearer division of labour on food security, displacement, nutrition health, reducing duplication in crisis settings.	Expected: October.
WP13	19	Advance the Shared Platform Initiative	Resident and Humanitarian Coordinators are better equipped to bring teams together around common priorities, performance expectations and accountability.	Expected: October.

WP	Action#	Action description	Why this matters	Where we stand
WP17	72	Establish a joint coordination mechanism for UN system training and research	More integrated efforts on training and research across the entire UN system.	• Expected: October.
WP23	5	Integrate UNIDIR into ODA	More integrated crime research and analysis in support of national authorities and partners.	• Expected: October.
WP27	35	Assess arrangements on environmental issues and develop proposals	More coherent and efficient system-wide support arrangements for environmental priorities.	• Expected: October.
WP28	30	Realign macroeconomic analysis capacities	Consolidated macroeconomic analysis, ending duplicate reporting on the same issues across departments.	• Expected: October.
WP17	69	Integrate UNRISD into UNU	Research capacity consolidated within more resilient arrangements, strengthening the system's development research offer.	• Expected: November / December.
WP24	4	Integrate UNICRI into UNODC	Deeper integration of crime research service in support of national authorities and partners.	• Expected: November / December.
WP10 / 20	88, 43, 44	Assess UN system senior management coordination fora	Less overlap among senior leadership coordination mechanisms and more joined-up secretariat teams, so the system acts more as one.	• Expected: November / December.

Footnote:

ICT : Information, communication and technology

LDCs : Least Developed Countries

LLDCs : Landlocked Developing Countries

SIDS : Small Island Developing States
